

## GLOBAL LOGISTICS

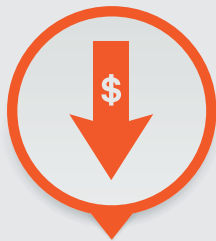

### WORLD-CLASS SOLUTIONS AND SERVICES

Global expansion is on the rise. PricewaterhouseCoopers expects international trade in goods and services to increase to \$27 trillion by 2030. As global trade grows, so will the need for effective global logistics solutions that promise flawless global IT deployments across geopolitical boundaries. There are only a limited number of IT solution providers capable of meeting the challenges of delivering multi-vendor solutions internationally. TachTech provides global logistics services to more than 75 countries worldwide, and delivers a model for continuous IT innovation on a global scale. Technical innovation often comes from emerging vendors, and these relationships require added attention for properly sustained service, delivery, and support. TachTech's global logistics coupled with its award winning technology practice delivers the enhanced service levels and high touch interactions between vendors and clients demanded to support continuous IT innovation on a global scale.
